Merlin Susana Enriquez

luvly.computer | senrique@andrew.cmu.edu | 916-841-8158
Carnegie Mellon University 2027, New Media Arts + Human-Computer Interaction

Experience

Front-End Developer & UI/UX Researcher
CyLab @ CMU, Pittsburgh, PA (Sept 2026-Present)

> Lead UI/UX research and design for Cyblocks, an educational block-based visual IDE that teaches agentic multi-host red-teaming (AMR) systems
> Build the front end in React, JS, HTML, and CSS
> Integrating AMR systems (ARTEMIS, Incalmo, CAI, PentestGPT) to improve visualization for researchers and lower the barrier for newcomers
> Developed the front end of the Cyberautonomy Initiative research website, collaborating with a backend developer on a Django publishing workflow

Senior Tech Advisor
IDeATe @ CMU, Pittsburgh PA (Aug 2024-Present)

> Teach undergraduate and graduate students laser cutting, 3D printing, and other digital fabrication techniques
> Help students find inventive ways to construct and prototype their projects
> Maintain and repair laser cutters, 3D printers, and other makerspace equipment

Projects

computers.json

> iluvmy.computer is a web archive of personal computers in React, told as intimate stories about their owners, imperfections included
> Rendered 3D models with React Three Fiber, using progressive level-of-detail loading for faster page loads
> Created 3D models through photogrammetry, modeling, and optimization, with archive content stored as structured JSON

Turning play into Neuroplasticity

> Developing an open-source curriculum that uses play to teach e-textiles, wearables, and creative technology
> Breaking technical and math concepts into approachable, hands-on art projects
> Teaching free community workshops, from soft-circuit wizard hats (electronics) to e-waste jewelry (soldering)

Education

Carnegie Mellon University,
Expected graduation 2027

- Bachelors of Fine Arts
- Additional major in Human-Computer Interaction
- Minor in Design

Skills

Front-End Development: React, JavaScript, HTML & CSS, WebGL, Web Design
Design: UI/UX, Figma, Adobe Creative Suite, Communication Design
Creative Technology: Arduino, Photogrammetry, 3D Modeling, Python, SQL, Computational Textiles
Fabrication: CAD, Digital Fabrication, CNC, Laser Cutting, 3D Printing
Leadership: Teaching, Team Management, Communication

Clubs/Leadership

Haute Glue: Co-Organizer(2025-2026)
- Helped organize event production with over 200+ attendees & Hosted weekly workshops & managed 15 designers.

Robotics Club: Design Chair(2026)
- Managed cross-organization coordination + creating both the interior & exterior design for a 9′×18′building(Booth).

Awards

- Frank-Ratchye Further Fund Research Grant ($1,600), STUDIO for Creative Inquiry, 2026
- School of Art Award ($1,000), CMU School of Art, 2026
- Henry Amero Award, HM ($500), BXA Intercollege Degree Programs, 2026
- Frank-Ratchye Further Fund Recipient ($500), STUDIO for Creative Inquiry, 2025
